Dear Sir or Madam:

The Psychiatric Research Resource Center (PRRC) is interested in receiving more information on the funding which you may provide in support of mental health research and substance abuse research. It is the intention of the PRRC to disseminate this information to interested candidates who use the resources of the center.

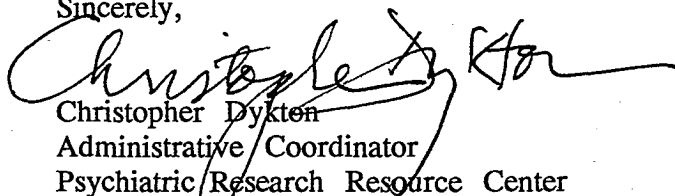

The PRRC is housed within the APA Office of Research and supported by a grant from the van Ameringen Foundation. The Center is intended to serve as an information exchange, providing and receiving information about psychiatric research and research training opportunities made available both through the federal government and private sources, such as foundation and corporations. Data bases provide information about grant and research training opportunities in specific subject areas of interest to research psychiatrists. We are also building a "mentor" data base through which we hope to be able to "match" younger researchers or potential research psychiatrists with senior researchers in their particular field of interest.

Please forward any research support information and your most recent annual report to:

Christopher Dykton  
American Psychiatric Association  
Psychiatric Research Resource Center  
1400 K Street, NW  
Washington, DC 20005

Should you have any questions concerning this request, please contact me at (202) 682-6292.

Sincerely,

  
Christopher Dykton  
Administrative Coordinator  
Psychiatric Research Resource Center

Supported by a generous grant from the van Ameringen Foundation
